
EMANUELE BIANCARDI

Via Privata Emilia 13/3, 16039 Sestri Levante (GE) - Italy | +39 339 2548186 | biancardi.emanuele@gmail.com

Summary

I'm a Senior Web Developer, with a specialization for front end development. Strong experience with dynamic and complex web projects, taking care of the whole development cycle. Comfortable with maintaining and updating legacy projects. Fluent in numerous programming languages and frameworks, including Javascript (ES6 - React/Redux), MySQL and PHP. Experience in managing a team of 10+ people working on several projects and with remote working.

Highlights

- Fullstack developer (partial to front end JS)
- Team management
- TDD
- Complex problems solver
- Quick decision maker
- Always studying new techs
- Strong fan of code reusability
- Strong fan of linters

Experience

Lead Web Developer 04/2015 to Current
Wyscout Chiavari (GE) - Italy

- Manage a team of 10+ people working on several projects, handling workloads, integrations, testing and deployment.
- Coordinate work on several internal libraries and shared components.
- Collaborate with designers and project managers to create satisfactory user experiences.
- Complete development tasks for front end public and internal web applications as well as back end server code, including private and public RESTful APIs.
- Enforce adoption of several best practices, from CI to code testing and linting.

Web Developer 12/2012 to 03/2015
Wyscout Chiavari (GE) - Italy

- Work on the core product of the company (Wyscout Platform), both on front end and back end.
- Maintain and update legacy code.
- Enforce adoption of React and Redux as main front end framework for new modules of the Wyscout Platform.
- Develop HTML5 Video Player Javascript library from scratch (still in use as main video player on the Platform).
- Develop internal video tagging software with Javascript and jQuery (still used by 150+ internal operators).

Education

Graduate in Computer Science 2012
University of Genoa Score 100/110
